

28th September 2010

Equipment Surcharge

Recently we have seen severe increasing costs related to the global crises and shortage of containers, noting also record highs of container buildings of US\$3000/20' which have driven additional charges. NGPL is, therefore, forced to introduce an "Equipment Surcharge" of US\$250/20' and US\$500/40' and 40'HC for southbound cargo to contribute to the escalating related costs.

The Equipment Surcharge will be payable by the ocean freight payer and will take effect from September 2010. Listed below for easy reference are the first applicable vessels.

Coral Islander II V.48S – ETA Kaohsiung 18 September 2010
 – ETA Busan 22 September 2010

Pacific Resolution V.1027 – ETA Ho Chi Minh 14 September 2010
 – ETA Sri Racha 17 September 2010
 – ETA Singapore 22 September 2010

The surcharge will be reviewed regularly and may attract a discount or premium depending on the prevailing market conditions. We thank you for your understanding.

For further information please do not hesitate to contact our local agents.
