

2<sup>nd</sup> October 2009

**Tarawa Terminal Handling Charge and Port Services Charge**

Dear Customer,

Due to increased port charges imposed by Kiribati Port Authority it has become necessary for NGPL(JSP) to implement a Terminal Handling Charge and a Port Service Charge on all import and export cargo for Tarawa. Neither charge is designed to increase revenue for NGPL but only reflects the increase in costs imposed on carriers by KPA, which we can no longer absorb.

The new charges will be applied as follows:

**Terminal Handling Charge**

- Container: AUD 97.50/TEU
- Breakbulk: AUD 5/RT
- Motor Vehicles: AUD 25/unit

**Port Service Charge**

- Container: AUD 50.00/TEU
- Breakbulk: AUD 2.00/RT
- Motor Vehicles: AUD 25/unit

The above charges take effect from **Coral Islander II V.0042S**.

We apologize for the short notice to customers but unfortunately this reflects the lack of notice we received on the increased port charges. KPA's increased port charges are effective from 01 October 2009.

We trust you understand the reasoning for the introduction of these fees. Should you require further information, please do not hesitate to contact your local NGPL agent, Shipping Agencies of Kiribati (SAOK).
